Infrastructure Funds Proposed: _____

Description and Location of Project: Cameron-Creole Watershed levee on the east bank of Calcasieu Lake. Project begins North of Grand Bayou and continues South to the historic mouth of the Calcasieu River. Rip rap would be place on the lake side of the levee.

Project Type (from CIAP fund uses): Conservation, restoration and protection of coastal area, including wetlands

Project Justification: Existing water control structures are inadequate to remove excess water in normal seasonal rainfall and tidal fluctuations. Spillways installed in the Bayou outlets will serve as additional water discharge areas.

Project Cost Share (type and amounts of non-CIAP funds proposed, if any: Total State
